DIGITAL DEFENSE TO PARTICIPATE IN THE NAFCU 39th ANNUAL CONFERENCE & EXPOSITION

San Antonio, TX – June 26, 2006 – Digital Defense, Inc., a provider of network security compliance and risk management services, today announced they are exhibiting at the NAFCU 39TH Annual Conference & Exposition. The conference will take place at the Metro Toronto Convention Center, Toronto, Canada from July 12 – 15 and is hosted by the National Association of Federal Credit Unions (NAFCU).

“Digital Defense is happy to be a part of this informative and educational event that will offer valuable knowledge and insight from some of the most distinguished speakers in the credit union community,” stated Larry Hurtado, President and CEO of Digital Defense. “We are committed to providing credit unions with the services that they need to secure their networks and efficiently manage the security compliance and business risk challenges that they face on an ongoing basis. We consistently receive extremely favorable feedback from our clients on the value of Frontline™, our security information management portal that we use to deliver our on-demand host discoveries and vulnerability assessments as well as the results of our penetration testing services for comprehensive workflow management through ActiveView™. In addition, this event will help us to further inform credit union executives and technology/security professionals about current threats to their organizations and the solutions that are available to them to reduce the potential of compromise.”

This year’s NAFCU Conference offers 35 informative education sessions in five specialized tracks: finance, operations, management/marketing, security & technology and emerging issues. Over 50 authoritative presenters, including subject matter experts from Digital Defense, will speak on vital topics facing credit unions today and provide valuable knowledge and insight.

About the National Association of Federal Credit Unions

The National Association of Federal Credit Unions is a respected and influential trade association that exclusively represents the interests of federal credit unions before the federal government and the public. Membership in NAFCU is direct; there are no state or local leagues, chapters or affiliations standing between NAFCU members and the NAFCU headquarters in Arlington, VA.

NAFCU provides its members with representation, information, education, and assistance to meet the challenges that cooperative financial institutions face in today's economic environment. The association stands as a national forum for the federal credit union community where new ideas, issues, concerns and trends can be identified, discussed, resolved.

About Digital Defense

Founded in 2000, Digital Defense, Inc. provides affordable security solutions that allow executives and IT personnel to assess their network security condition, manage their IT risk, and validate deployed infrastructure. Frontline™, a web portal supporting a comprehensive suite of security applications, provides access to a superior security information management platform with a trusted and independent team of security analysts who provide continually updated market-specific vulnerability analysis. The Digital Defense team is comprised of recognized security experts who focus on specific markets, through which they garner a better understanding of client needs in an environment of increasingly complex security threats. Based in San Antonio, Texas, Digital Defense has over 400 clients nationwide.
